

Body Mirror System Healing Intensive Seminar

June 27 – July 1 and November 7-11, 2012
Sitges (Barcelona)

Sir Martin Brofman in Spain (Sitges)

Learn body-mirror system from its originator

Residential Healing Intensive seminar in Spain presented by its originator, Sir Martin Brofman. He will teach the classes in English, with simultaneous translation into Spanish.

Body Mirror System

The Body Mirror System is a technique, a method, a set of tools which anyone can use. These tools allow you to explore the relationship between your body, your consciousness, and your life, and to study the inner attitudes which have been shown to encourage the healing process.

The techniques are so simple that even children have been taught to use them. There are no secret symbols, and nothing to join.

This system of healing developed by Martin Brofman, is a synthesis of Western psychology and Eastern philosophies based on the chakras (energy centers found in the Hindu traditions). Because each of these chakras can be associated with certain parts of the consciousness as well as certain parts of the body, they allow us to read the body as a map of the consciousness within. Thus, tensions in the body are seen to reflect tensions in the consciousness, and the chakras can be used as a vehicle to understand the Body Mind Interface and its implications for healing.

At the completion of the experience, you will be able to:

1. Understand and experience yourself as a Being of energy.
2. Feel and direct energy, and see energy (auras, chakras, thought forms).
3. Understand the relationship between your body and your consciousness.
4. Understand how symptoms in the body reflect tensions in the consciousness.
5. Read the body as a map of consciousness, understanding the inner causes to outer symptoms.
6. Understand the chakras and their associations with specific parts of the consciousness and specific parts of the body.

7. Use various tools designed for healing (White Light, colors, thought forms).
8. See the results of putting these techniques and tools to use.

During the class, you will exchange six healings with other participants.

There isn't anything you can't do, just some things that you have not yet learned how to do. This is an opportunity to go beyond your perceived limits, do things you thought were impossible, and recognize the unlimited nature of your Being.
